

Table 8: Research facilities of Agroscope Changins (ACW Changins)

Type	Location	Further details
Laboratory, field experiments, on farm research	ACW Changins and outer locations	Expertise in field crops and grassland: plant and reproductive growth, agronomic value and quality of varieties, dairy cattle and mountain grazing systems
Laboratory, field experiments	ACW Changins and outer locations	Expertise in genetic resources of cultivated plants: biodiversity and genetic resources, disease elimination, healthy plant material propagation, material conservation
Laboratory, field experiments, on farm research	ACW Changins and Pully, outer locations	Expertise in viticulture: plant and reproductive growth, agronomic value and quality of varieties, vine
Laboratory, field experiments	ACW Changins and outer locations	Diagnostic of pests, of fungal, bacterial and virus diseases, plant protection
Laboratory, field experiments, on farm research	ACW Changins and Conthey, outer locations	Expertise in berries, medicinal plants, greenhouse crops, regional aspects of horticulture and arboriculture: plant and reproductive growth, agronomic value and quality of varieties
