(ABioDoc)

French trials to phase out contentious inputs : Available resources in a literature database

A wide-angle photograph of a lush green rural landscape. In the foreground, a flock of sheep is grazing on a grassy hillside. The middle ground shows rolling green hills with scattered trees and a small farmstead with several buildings. The background consists of more green hills under a clear sky.

ABIODOC FRENCH DOCUMENTATION CENTER

Reminder: ABioDoc it's...

- The **French documentary center specialized in organic farming** (created in 1993)
- An expertise pole of **VetAgro Sup** (an institute for higher education and research in agronomy and veterinary sciences)
- A team of 4.5 people : documentalists and agronomists
- **Missions: documentary watch, collection, processing and dissemination of informations related to organic agriculture**
- More than 40,000 references, mainly in French

DOCUMENTARY WATCH ON
CONTENTIOUS INPUTS

Informations on contentious inputs alternatives

Who produces references ?	What type of references ?	In which language ?	Where can we find these references?
Farmers, technicians, advisers, operators...	Testimonials, test results, technical data		Technical reviews, technical sheets, guides, videos ...
Researchers, experimenters...	Research results		Scientific reviews, congress proceedings, research articles available online, videos ...

ABioDoc :

- Conducts a **documentary watch on the alternatives**
- indexes documents/videos in the Biobase** (its database dedicated to organic farming)

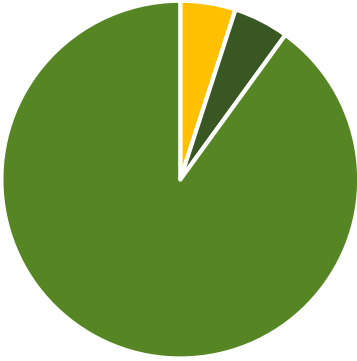

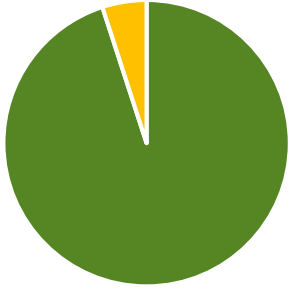

Documentary watch and documents indexing

- In 2018, ABioDoc made an inventory of the documents already indexed on alternatives to contentious inputs (7 bibliographic lists)

These bibliographic lists are available on the Organic-PLUS website : <https://organic-plus.net/abiodoc-french-documents/>
