Jaune de Savoie

Allium cepa

History and general information

This onion is a beautiful traditional "Oignon de Pays" cultivar with a rather flat shape, well suited to braiding and winter storage.
It is a selection of the Grosjean seed-growing family in Chêne-Bougeries, improved by Semences de Pays since 2015.
It has a beautiful straw-yellow skin.

Technical characteristics

This onion has an attractive colour and a flat shape.
It is a good storage onion, ranging from medium to large in size.
It has good suitability for market gardening, an attractive appearance, a very good aromatic and pungent flavour, and very good overwintering potential. Its shape also makes it suitable for making onion braids.
The cultivar complements 'Rouge de Genève' well for marketing purposes (PGR Description PSR07).

Uses

A very attractive onion suitable for all uses.
